34 - Número de declarantes por percentual da retenção na fonte sobre rendimento bruto total . [illegible]

APRESENTAÇÃO

A Coordenação do Sistema de Informações Econômico-Fiscais (CIEF), da Secretaria da Receita Federal, tem o prazer de entregar à sua clientela especializada o terceiro volume de "IMPOSTO DE RENDA PESSOA FÍSICA", correspondente ao exercício de 1981.

Compõe-se a publicação de três conjuntos de informações referentes a: MCT - Modelo Completo, MSO - Modelo Simplificado Opcional e a consolicação dos dois modelos.

O Modelo Simplificado Opcional, formulário verde, pôde ser utilizado por qualquer contribuinte com rendimentos superiores a Cr$ 146.000,00, que é o limite de isenção. No entanto, para declarar neste formulário, deveriam ser obedecidas as seguintes condições:

a) os rendimentos classificados na cédula C, até Cr$ 820.000,00, puderam gozar do desconto padrão de 25% (até o limite máximo de Cr$ 205.000,00). Além dos 25%, puderam ser abatidas despesas com médicos, dentistas, hospitalização, pensão alimentícia, encargos de família e aluguel;

b) os rendimentos da cédula C, excedentes a Cr$ 820.000,00, assim como rendimentos de outras cédulas, foram tributados sem se considerar quaisquer deduções ou abatimentos a eles referentes.

No Modelo Completo, formulário azul, puderam ser feitas as deduções e abatimentos tradicionalmente concedidos pela legislação.

Para fins de declaração, os rendimentos são classificados em 8 (oito) cédulas:

a) Cédula A/B: rendimentos de capital - juros;

b) Cédula C: rendimentos do trabalho assalariado - salários, vencimentos, soldos, gratificações, etc;

c) Cédula D: rendimentos do trabalho sem vínculo empregatício: médicos, dentistas, etc;

d) Cédula E: rendimentos de aluguéis e "royalties";

e) Cédula F: rendimentos distribuídos por pessoas jurídicas;

f) Cédula G: rendimentos da agricultura, pecuária e outros;

g) Cédula H: outros rendimentos.

Nesta publicação, os dados são apresentados sob os seguintes aspectos:

- Classes de Rendimento Bruto Total
- Classes de Renda Líquida
- Classes de Renda Bruta
- Regiões Fiscais, Delegacias e Unidades da Federação
- Ocupação Principal
- Relação de Empregos

Quanto às deduções, vale esclarecer que:

Desconto Padrão - É o desconto do Rendimento Bruto calculado na base de 25% do rendimento bruto classificado na cédula C, até o valor máximo de Cr$ 820.000,00 (no exercício de 1981), que substitui todas as deduções cedulares mais os abatimentos (exceção feita a: despesas de aluguel, encargos de família, pensão alimentícia, despesas médicas, dentárias e hospitalares, abatimentos de maiores de 65 anos em 31/12/80);

Este desconto, característico do Modelo Simplificado Opcional (MSO), foi estendido em 1981 também ao Modelo Completo (MCT).

Deduções Cedulares - Modelo Completo (MCT): são as despesas efetivamente pagas que atendam aos seguintes cumulativos:

a) despesas necessárias à percepção dos rendimentos cedulares e à manutenção da fonte produtora;

b) estão sujeitas à comprovação ou justificação a juízo da autoridade lançadora;

c) devem ser realizadas no decurso do ano-base correspondente ao exercício da declaração;

d) devem estar relacionadas com as atividades profissionais exercidas.

Nesta publicação, a renda bruta deve ser considerada como rendimento bruto menos deduções cedulares ou desconto padrão no MCT; e rendimento bruto menos desconto padrão no MSO. Nos dados apresentados surge o termo "calculado" tal como: abatimento calculado, renda líquida calculada, etc. Ocorre que na declaração de rendimentos existem os abatimentos limitados a [illegible] da renda bruta e os não limitados, mas grande número de contribuintes ignora esse limite máximo legal - casual ou intencionalmente - e abate uma percentagem bem maior, às vezes, superior ao total da renda bruta. No processamento, esse erro é [illegible] e feita a devida correção.

Nos quadros correspondentes à retenção na fonte (Imposto retido na fonte calculado corrigido) já está computada a correção de [illegible] sobre o imposto retido na fonte.

No capítulo 3 desta publicação, observa-se a ausência de dados relativos ao "Imposto s/Lucros e Alienação de Participação Societárias", "Imposto s/Lucros na Alienação de Imóveis" e "Antecipação de Imposto". Este fato se deve a não existência destas informações no Modelo Simplificado Opcional (MSO).

Ao editar mais esta obra, a SRF espera estar contribuindo para um melhor conhecimento do IRPF e consequentemente da realidade tributária do país.

Brasília, Julho de 198[illegible].
